catalyst for success

As parents & as educators the most precious gift we can give to a child is to love to learn. The parents & educators should train the child to educate ownself, to develop own in tellectual, moral, aesthetic & practical capacities and to grow freely to arouse in him/her the desire for knowledge and progress. The school provides all the required material needed for study. Emphasizing the slogan of burdenless education. We encourage conceptual learning based on life - skilled methods.

The Prefer Base

Welcome to The Shannen Kid's where your child's educational journey of discovery, learning, exploration & fun becomes a reality.

We believe in quality care and education of children in well designed infrastructure and by well trained educators, which very well facilitates the teaching and learning process. Parents' satisfaction about their child's education, safety and security is our priority. Our management, philosophy and facilities are purposefully designed for the delivery of:

- The very best high quality care and education for children & their families in a place where life-long learning begins.
- Open communication between management, staff and parents.
- An environment of supportive staff and Shannen family i.e. Shannen Kids.
- A place where all communities and multiple culture are respected.

Each child is special to us. We believe it is very important to build good character, cultivate imagination and develop the motivation to learn. Our school provides a gentle atmosphere where children feel secure in their first experience in a group setting and the classroom. So our analysis about the concern of parent and student leads us to think of a conceptual pre-school i.e. Shannen Kid's
